

I am absolutely against the FCC limiting or eliminating my choice to listen to satellite radio and the localized channels that they provide me with. It is my choice as a consumer and an American to choose to pay for a service that I feel far surpasses that of local radio stations. I don't believe the FCC has the right to take away my option of localized broadcasting from my satellite provider. I respectfully URGE the FCC to reject the NAB's petition 04-160 and allow me to continue to receive the quality programming that I PAY FOR WHEN I PURCHASE A SATELLITE SYSTEM. If the NAB is so concerned about the competition, maybe they should improve their quality and their choices as to what consumers wish to hear.
